

DIVISION OF MINERAL MINING PROCEDURES MANUAL		PROCEDURE NO.	4.3.00
		ISSUE DATE	09/10/91
SUBJECT	Additional Bond Required at Anniversary Time	Section	Permitting
		Last Revised	

OBJECTIVE AND INTENT:

To ensure that areas to be mined are bonded prior to disturbance.

1. Ninety (90) days prior to the anniversary date of the DMM permit, the Program Support Technician will send a letter to the operators advising them of the permit's current bond status. The letter will also inform the operator that if the permit's disturbed acreage is more than reported the previous year or will be more in the next 12 months, the appropriate amount of additional bond should be submitted with the progress report materials on the anniversary date.
2. If this additional bond is not submitted with the progress report materials, the Program Support Technician will contact the appropriate Mine Inspector within 2 days following receipt of the progress report material.
3. The area Mine Inspector will issue a Notice of Non-Compliance on the first business day following the anniversary date, requiring the appropriate bond amount be submitted within 10 days to the DMM office.
